

Motor Oil & Lubricants

# REXOIL

## LONG LIFE ANTIFREEZE

**REXOIL LONG LIFE ANTIFREEZE** is a product based on ethylene glycol containing special additives. It has been developed to prevent cold weather damages. Antifreeze also be used outside of the automotive field. Does not contain nitrate. It's mixed with the cooling waters of Cars, trucks, buses and other vehicles to protect from the cold. It is used in industrial cold water circulation systems, solar powered systems, ice skating rinks and similar places.

### *Properties*

- Corrosion inhibitor technology protects metals against all forms of corrosion.
- Protects against winter freezing and summer overheating.
- Shows a good performance in all seasons due to good heat conduction properties.

### *Approvals and Specifications*

- VW TL 774 F
- MB-325.3
- GM 6277M
- Ford WSS-M97B44-D
- DEUTZ/MWM 0199-99-2091
- MAN - 324 SNF
- BS 6580
- Komatsu 07.892 (2009)

### Technical Specifications

Test	Method	Typical Properties
Density @ 20 °C	ASTM D 5002	1,105-1,145
Freezing Point °C In water % 50 antifreeze In water % 33 antifreeze	ASTM D 1177	(-35) – (-38) (-15) – (-18)
pH value at 25 °C da pH, % 50 antifreeze + %50 water pH, % 33 antifreeze + %67 water	ASTM D 1287	7,5-11 7,5-11
Boiling Point, °C	ASTM D 1120	Min. 163
